# PROJECT 3

- Building on the code we did in class to create a time log react app for staff to log the date, start/finish time and notes each day that they work.

CODING CHALLENGES

- Appending images and linking these to a name

- Adding "Hello {name} to each page once you clicked on an image. eg click on a photo of myself and it says Hello Eden

- Reach - Auto filling a name input box for the form based on the image you clicked

- Creating a dropdown calendar selection

- Changing the colour of the button that is selected when on that route.
  eg localhost:3000/edit the edit button then changes colour

COLOURS

#A3B17B

#CCDAA2

#000000

#FFFFFF
